Funniest Moment at King's College: Every day is funny ...King's is so far from the reality of most state schools it is surreal. But two stick in my mind:

(1) When I raced across to the field ready to "bollock" a Maori fellow who was hitting golf balls out onto the cricket pitch only to find it was Michael Campbell practising in the wrong place for the NZ Open.

(2) When I mistakenly locked a colleague in the storage cupboard at the start of lunch (she was in there for 3 hours) and other teachers and her classes were looking for her.

Such is life, I could write a book on St. John's House; I may one day.....
